Middleton Technology School does not have a PTA or Parents Forum which means we are not benefiting from available funds that schools cannot directly tap into.

We realise these benefits help students achieve higher results and assist the school with supplying vital equipment and activity services for everyone's benefit.

We need your help to access these benefits and propose to set up a Parents & Community Forum which will be about more than just fund-raising. The Forum will exist to provide closer links between home and school and is an excellent way to bring staff, parents and friends together socially, in support of the school and working towards a common goal.

**It will be fun too!!**

We shall encourage our School Council to be involved when organising and planning Forum events and activities. This way they can enhance their skills in marketing, advertising, budgeting, planning, etc.

We would also encourage social events to run throughout the year where parents can get together and enjoy the social side of the Forum.

We appreciate how precious your free time is and wish to discuss the many options available as a Parents & Community Forum such as funds being raised by shopping online which most people can do from their own home.

Please join us, find out more and add your ideas to the pot.

Mrs J Ramm

**Possible  
Events:**

**Indoor Car  
Boot Sale**
